

Our Vision

To be a safe, welcoming and happy place where all children are inspired to play, learn, develop and grow.

To be the first steps in the children's Faith Journey, beginning their friendship with Jesus through prayer, song and story.

To facilitate the children to grow in self confidence and independence, being kind, considerate and respectful to each other.

To provide a rich, stimulating environment that allows the children to have fun as they learn and express themselves through play.

To provide new and challenging experiences where the children are able to explore their curiosities, developing their understanding of their place in the world.

To recognise each child's individual needs and encourage them to reach their true potential in all areas of learning, whilst celebrating their uniqueness.

To provide a language rich environment where the children can communicate confidently with adults and each other.

To develop a strong and open relationship with families, encouraging them to be part of their child's life long learning journey.
