

Year 1 Vision

To provide a curriculum that intends to securely and consistently lead children to make progress and reach their full potential. A curriculum in which the children can know more, remember more and apply more through meaningful and memorable experiences.

To provide an engaging faith journey for our children through bringing to life the Gospel stories and leading Prayer and Liturgy sessions. To connect with our Catholic faith and our class Saints, and understand how to follow in the footsteps of their Saint.

To grow in respect, kindness and consideration with one another, promoting our school values in all they do.

To develop and encourage their independence, confidence, resilience and positive attitude towards learning and tackling new challenges.

To communicate confidently making their needs known, learning by making mistakes and have a good awareness of how to keep themselves safe. To ask questions and show wonder and awe about the world, exploring their own ideas and draw on each other's skills and talents through collaborative learning.

To develop as confident and willing learners in all areas of school life.

It will be a place where the children will be themselves achieving their dreams and aspirations and having fun with big smiles!
